

Application for a medical practitioner to supply pharmaceutical benefits

Purpose of this form

Complete this form if you are a registered medical practitioner requesting approval under section 92 of the *National Health Act 1953* to supply Pharmaceutical Benefits Scheme (PBS) subsidised medicines in a particular rural/remote area, where the community does not have convenient and efficient access to these medicines from a PBS approved pharmacy.

Important information

Only one full-time or equivalent part-time medical practitioner can have section 92 approval for a practice.

The medical practitioner must:

- be practising medicine, or intending to practise medicine, in the area for which approval is being sought;
- hold a current registration with the Medical Board of Australia; and
- be willing to supply PBS medicines to any person in that area who presents with a valid PBS prescription.

In assessing your application, the Australian Government Department of Health (the Department) may contact surrounding pharmacies and the local council for comment.

It is important to note that where an approval is granted to a medical practitioner, it will remain in effect until the nominated end date on the approval, or until an approved pharmacy opens in the particular area. In this event the section 92 approval will be cancelled as required under section 98 of the *National Health Act 1953*.
