

Private Hospitals Data Bureau 2008-09

Number of separations, average length of stay, patient days and average charges, by AR-DRG version 5.1

Private Hospitals excluding Day Surgeries

Notes to be read in conjunction with tables

Figures in the following tables are subject to change pending further submissions or resubmissions of data by private hospitals.

Confidentiality - Where there are DRGs with less than 10 separations or fewer than 3 reporting hospitals, all results have been replaced by asterisks ("*****") to maintain confidentiality.

Average charges - based on all separations where a charge was reported.

Accommodation charges/benefits - refer to private, shared or high dependency accommodation for any Accommodation Type (i.e. advanced surgical, surgical, medical, rehabilitation, obstetrics, and psychiatry). All hospital episodes must have a charge/benefit component relating to accommodation, unless it was bundled, or the hospital billed a procedure-only fee. Therefore, cases such as chemotherapy should either have a charge/benefit component in "bundled" or "accommodation" or "theatre". They should not be reported as "other".

Bundled charges/benefits - refer to an aggregate of 2 or more charges billed by the hospital/paid by the insurer, such as case payments by DRG or MBS.

CCU means the coronary care unit of a hospital. **CCU charges, benefits, days and hours** - excludes ICU, SCN, NICU, PICU and HDU.

ICU means the intensive care unit of a hospital. **ICU charges, benefits, days and hours** - includes NICU and PICU; excludes SCN, CCU and HDU.

Other charges/benefits – refer to services which cannot be categorised as accommodation, theatre, labour, ICU, pharmacy, prosthesis or bundled. It excludes ex-gratia charges, television, phone calls, extra meals, FED, reversals or journal adjustments.

SCN means the special care nursery of a hospital. **SCN charges, benefits, days and hours** - excludes NICU, ICU, CCU, PICU and HDU.

Theatre charges/benefits – refer to a theatre/procedure room/ angiography suite. This applies to theatre charges, benefits and minutes in theatre.

Minutes in Theatre - from the time the patient entered the operating theatre or procedure room until the time the patient left the operating theatre or procedure room. For example, coronary angiography/angioplasty, lithotripsy and ECT must have minutes of operating theatre time reported, even though they are performed in a procedure room rather than a theatre.

Notes to Charges Results

When comparing average charges from the PHDB, two different calculations of the average charge have been used, namely 'Episodic Charges' and 'All Episodes Charges'. Any reference to an average charge will be the 'Episodic Average Charge' unless otherwise stated.

Example

Patient A - Bundled charge = \$1,000

Patient B - Bundled charge = \$700

Patient C - Bundled charge = \$0

Total charges = \$1,700

Total patients = 3

Number of charges = 2

Episodic Charge' averages - the average only for where there was a charge recorded.

Total charges / Number of charges > \$1,700 / 2 charges = \$850 average per charge

All Episodes' averages - the average for all patients.

Total charges / Total patients > \$1,700 / 3 patients = \$567 average per patient

PRIVATE HOSPITAL DATA BUREAU - 2008-09
Care Type Breakdown - Private Hospitals

Care Type	No of Separations	Percentage of Total (%)	Average LOS	Average Charge (Episodic)(\$)
